## ACI SERVICES FORMS STRATEGIC PARTNERSHIP WITH KERR ENGINEERED SALES COMPANY FOR 2019

**CAMBRIDGE, OH. Dec. 12, 2018** - ACI Services is excited to announce its new partnership with Kerr Engineered Sales Company to promote ACI Compressor Products and Solutions starting in the new year. Kerr Engineered Sales Company's professional sales force will provide exceptional insights about ACI Services products and services throughout the Virginia, West Virginia, Ohio, Pennsylvania, New York, Delaware, New Jersey and the New England area.

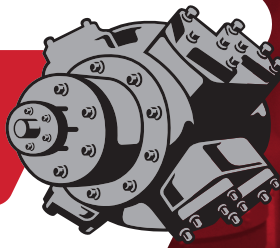

Expanding compression knowledge of both old friends and new compressor specialists is an ACI Services strategic initiative. Kerr Engineered Sales Company brings a vast number of talents, locations, and sales professionals that will enable ACI Services to better serve its customers.

The addition of Kerr Engineered Sales Company will supplement your current lines of communication directly with ACI Services. We always look forward to hearing from you. All orders will be placed directly with ACI (either by you or your Kerr Engineered Sales Company Representative). All other business interactions after receipt of the purchase order will remain the same and be through ACI. Your Kerr Engineered Sales Company Representative will be available for assistance.

Please welcome Kerr Engineered Sales Company as part of ACI's commitment to making sure our customers enjoy the most knowledgeable and professional sales communications.

### **About ACI Services:**

ACI Services, Inc. started in 1960 as Yorde Machine Products. Since then, ACI has grown and maintained its reputation for excellence in compressor performance and cylinder design. Today, ACI has developed a vast network of alliance partners and a comprehensive portfolio of compressor problem solutions. This empowers ACI with a superior ability to create total integrated solutions, while maintaining competitive pricing. ## About Kerr Engineered Sales Company:

SERVING THE INDUSTRY OVER SIXTY FIVE YEARS

Kerr Engineered Sales Company is known for over 65 years of knowledge and expertise in natural gas, pipeline, industrial, water and power industries. From stopple or pig orders to complex, fully integrated systems, Kerr delivers depth and level of service that cannot be beat. Cost savings and efficiency are the goals for every project.

“The Kerr staff knows the industry better than our own employees.” is often said by the companies represented. Our hands-on approach and extensive product application knowledge is trusted to provide solutions and ensure the job is done. Efficient, safe systems that avoid factory shutdowns and costly mechanical failures across multiple industries is what Kerr has been providing since 1952.
